CONCRETE ROOF TILE COLLECTIONS

Proudly Serving the Florida Market for over 60 Years

**NEWPOINT**
CONCRETE ROOF TILE

Westlake
Royal Roofing Solutions™

The Mastery of Manufacturing

We focus on the latest innovations in tile manufacturing. Our process is unique, providing pre-blended tile for the best roof aesthetic. With locations in Lake Wales, Okeechobee, and Pompano Beach we continue to maintain our commitment to our Florida customers.

Asphalt Shingle

139°

attic temperature

Concrete Tile

94°

attic temperature

Why Tile?

NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Newpoint™ Cool Roof System to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

Material Matters.

BEAUTY MATTERS

Our concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

DURABILITY MATTERS

Newpoint™ engineered tile is specifically designed for new build and reroof, helping provide Floridians protection from the elements.

VALUE MATTERS

Westlake Royal Roofing Solutions™ stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

SUSTAINABILITY MATTERS

Newpoint™ concrete roof tiles are locally made and sourced in Florida since 1958.

Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Florida. We take pride in the color quality and blending we provide.

3 STYLES

Newpoint™ concrete roof tile easily harmonizes with all three dominant architectural styles in Florida.

Visualize

Picture your new roof with Newpoint™ Concrete Roof Tile Inspiration house photo gallery on our website.

Design your home with your dream roof by using our [Dream Home Visualizer](#). Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Newpoint™ Concrete Roof Tile makes it easy to buy with confidence.

Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

Online Ordering

Manage your orders through myWestlakeRoyal, a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

Limited Lifetime Warranty*

As a brand you can trust, Newpoint™ Concrete Roof Tile offers one of the most comprehensive, fully transferable roofing warranties available on the market today.

Follow Us On Social Media

See what everyone loves about Newpoint™ Concrete Roof Tile and get inspired on: Facebook, LinkedIn, YouTube, HOUZZ, Pinterest and Instagram.

Code Approval: Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles have systems that are Class A fire rated.

Disclaimer: The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

Installation: According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.

Visualize

Picture your new roof with Newpoint™ Concrete Roof Tile Inspiration house photo gallery on our website.

Design your home with your dream roof by using our [Dream Home Visualizer](#). Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Newpoint™ Concrete Roof Tile makes it easy to buy with confidence.

Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

Online Ordering

Manage your orders through myWestlakeRoyal, a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

Limited Lifetime Warranty*

As a brand you can trust, Newpoint™ Concrete Roof Tile offers one of the most comprehensive, fully transferable roofing warranties available on the market today.

Follow Us On Social Media

See what everyone loves about Newpoint™ Concrete Roof Tile and get inspired on: Facebook, LinkedIn, YouTube, HOUZZ, Pinterest and Instagram.

Code Approval: Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles have systems that are Class A fire rated.

Disclaimer: The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

Installation: According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.

2024
color of the year

Bridgeport Blend Copper

Coming Q2 2024!

Inspired by Nature's Beauty.

A sophisticated fusion of grays, taupe, brown and black with rust streaks, Bridgeport Blend Copper is a gorgeous representation of nature's beauty. Radiating warmth and modern elegance, this earthy neutral with its gentle hints of copper toned hues is timeless and highly versatile, complementing a variety of contemporary to traditional architectural styles while playing nicely with exterior stone, wood, and metal features.

A true showstopper, embrace the possibilities!

**Available in our flat,
smooth profile: Bel Air**

Bridgeport Blend Copper is:

- deeply rooted in nature, evoking feelings of comfort, tranquility, and positive energy.
- an all-season blend that pairs beautifully with soothing, uplifting blues, buttery neutrals, transitional greens, and spirited citrus hues that will dominate 2024 and beyond.
- impressive and distinctive with its orange luster streaks; ideal for a stunning, custom exterior.

Learn more about our Color of the Year by visiting
eagleroofing.com/2024-color-of-the-year

Flat Profiles

Limitless options without compromise, Eagle's Flat Tile profile offers graceful beauty, rugged strength and enhanced curb appeal. Available in a vast array of colors from warm earth-inspired tones and cool grays to eye-catching hues ranging from red to eggplant—its versatile appearance seamlessly complements both traditional and modern architecture.

See for yourself. Concrete roof tile never looked so good.

Bel Air—4620 Bloomingdale Blend

Bel Air

Sometimes, the beauty is in the simplicity of the design. As our most popular profile, Bel Air is a flat, smooth tile with tailored lines and a square butt that offers a sleek, elegant finish. Gorgeous on its own or paired with other finishes, Bel Air's versatility allows you to dramatically enhance your curb appeal by mixing materials and going heavier on other exterior elements such as pavers, stonework and landscaping. The choices are endless!

Featured Product

4477 Viera Blend

Blend of Dark Brown, Tan

One of our top selling colors, Viera Blend combines two contemporary neutrals to create a rich, classic design that easily shows off the different architectural elements of a home beautifully, without feeling too weighty or heavy.

Viera Blend is the perfect match for on-trend exterior paint colors like warm, creamy whites, as well as stony gray hues or gentle shades of green. It also complements any number of light to mid-range custom finishes including rock, stone, stucco, and plank.

Bel Air Copper

Coming Q2 2024!

Introducing our new Copper Series featured in our beautiful Bel Air profile. Inspired by the vintage look of semi-weathered slate, this collection of roof tiles mimic some of the old-world, aged roofscapes seen throughout Europe.

Our Bel Air Copper comes in a splendid selection of earthy colors with distinctive but subtle, rust-colored streaks, to give it a splash of red-orange luster, without being overpowering. The clean defined lines and warm finish of this roof tile will add elegance, beauty, and a uniqueness to many different styles of residential, commercial, and historical properties.

SRB 4666 Grass Valley Range Copper - Range of Dark Greens, Rust Streaks

SRB 4669 Grays Peak Range Copper - Range of Light Gray, Warm Grays, Dark Gray, Rust Streaks

SRB 8828 Bridgeport Blend Copper - Blend of Grays, Taupe, Brown, Black, Rust Streaks

Bridgeport Blend Copper

Inspiration

SRB 8828 Bridgeport Blend Copper

High & Medium Profiles

Inspiration that will move you... Eagle's high and medium barrel shaped profiles exude rich colors, unmatched aesthetics and timeless elegance. Whether you are looking to emulate the authentic look of Spanish tile in the Old World or wish for a more contemporary style while mirroring the Mediterranean appearance found in the roofscapes of Italy, France and Greece; you can rest assured that your curb appeal will be the envy of everyone in your neighborhood.

Capistrano

A high S-profile, our Capistrano is semi-cylindrical and is the most traditionally recognized of all tile profiles. A style icon, this centuries-old design perfectly complements Spanish and Italian architecture and pairs beautifully with stucco, stone and brick siding. However, its stunning good looks extend far beyond these influences and can be found in about every style of building from residential and commercial to military and institutional structures throughout the United States and Canada.

Featured Product

39604 Maple Creek Blend

Blend of Light Brown, Taupe, Gray, Tan

Oh so pretty! That is how we describe Maple Creek Blend with its beautiful blend of earthy tones that will effortlessly enhance your dream remodel or new construction home. Sophisticated and welcoming, this colorway is amazingly versatile and pairs well with a cool palette as well as a warm.

Create a stylish and inviting ambiance by glossing your exterior with a shade that falls in the white, cream, gray or brown family. A neutral backdrop will allow you to add bold accents and accessories all while complementing your home's focal element, your Maple Creek Blend roofscape.

Malibu

Malibu concrete roof tiles are medium-height tiles with a double-S shape aesthetic. Its gentle curves create a gorgeous roofline that easily complements modern architectural designs and large buildings. It's particularly effective on distinctive homes, apartments, hotels, places of worship and commercial structures. It's the best of both worlds, where Mediterranean meets Contemporary.

Featured Product

29501 Maple Forge

Hues of Red Orange, Maroon Streaks

Warm, joyful and vibrant are just a few adjectives that define Maple Forge. If you want to shy away from typical neutral colors, then this red orange wonder is a great alternative. Its rich and deep tone evokes just the right amount of vibrancy without being overwhelming. As the focal point of your home or commercial property, Maple Forge pairs well with toned-down colors like sage green or a grayish-green, or for a more monochromatic scheme you might want to consider brown, tan or a creamy off-white. Whichever route you choose, this cheerful shade will raise your curb appeal to a whole new level.

2424 Rosewood - Hues of Reddish Orange, Black Streaks

2503 Sierra Madre - Hues of Charcoal, Black Streaks **P**

Boosted Capistrano

Accessory Tile

It's easy to create the beauty of an authentic mortar-boosted clay roof with our Boosted Capistrano accessory pieces. Available in a wide range of colors, these pieces were designed to complement your Capistrano tile. For best results, mix your Boosted color and base color as this will add to the authenticity of your roof.

Considerations:

- Choose a Boosted accessory piece to go with your base tile. For color options, please contact an Eagle Account Representative.
- Decide on the look that you want. Prefer a neater treatment? Want a more authentic look?
- Decide how much boost you would like.

No matter what type of Boosted application you choose, your new Eagle Boosted Capistrano roof will be sure to impress.

% USED ON ROOF	APPROX. INSTALLED WEIGHT FIELD TILE PER 100 SQ FT
10% Application	970
20% Application	1055
30% Application	1145

Each Boosted piece weighs approximately 4.8 lbs.

Why Eagle Roofing Products and Concrete Roof Tile

Eagle Roofing Products is the largest, USA owned concrete roof tile manufacturer in the United States. Whether you are building a new home or re-roofing your existing one, your home deserves the best roof possible. When you choose Eagle concrete tile, you'll get a roof that is aesthetically stunning, durable and sustainable.

Founded over three decades ago by Robert Burlingame, Eagle began operations in the fall of 1989 with one high-pressure concrete tile extrusion machine. Today, Eagle's Rialto, California facility is the largest in North America. In addition to Rialto, we operate facilities in Phoenix, Arizona as well as Stockton, California and Sumterville, Florida meeting the demand for concrete roof tile across the United States and Canada.

Our expertise, coupled with our extensive array of profiles and colors, enables us to provide our customers with high quality concrete roofing products that are beautiful, long-lasting and environmentally friendly.

Eagle's long experience in the roof tile industry and dedication to prompt personal response to its customers' needs have resulted in a well-deserved reputation for quality and service—a reputation that is unmatched.

Eagle is customer service.

Bel Air—4549 Santa Paula
Specialty Installation
Mitered Hip & Ridge

Unsurpassed Beauty, Strength and Longevity

When you choose a concrete tile roof from Eagle Roofing Products, you are choosing years of protection and peace of mind. Our tile is tested to the highest standards of the industry. A properly installed Eagle Tile Roof will withstand the elements through rain, snow, high wind and scorching heat—outperforming all other roofing products, while remaining aesthetically stunning.

Fire Tested
Eagle Roof Tile is a Class A roof covering that will protect your home and personal property.

Hail/Impact Tested*
Concrete roof tile stands up to hail, as well as or better than, any other roofing product. Some insurance companies offer discounted premiums for houses with tile roofs because of its impact resistance.

**Stockton, Arizona and Florida manufactured tiles only.*

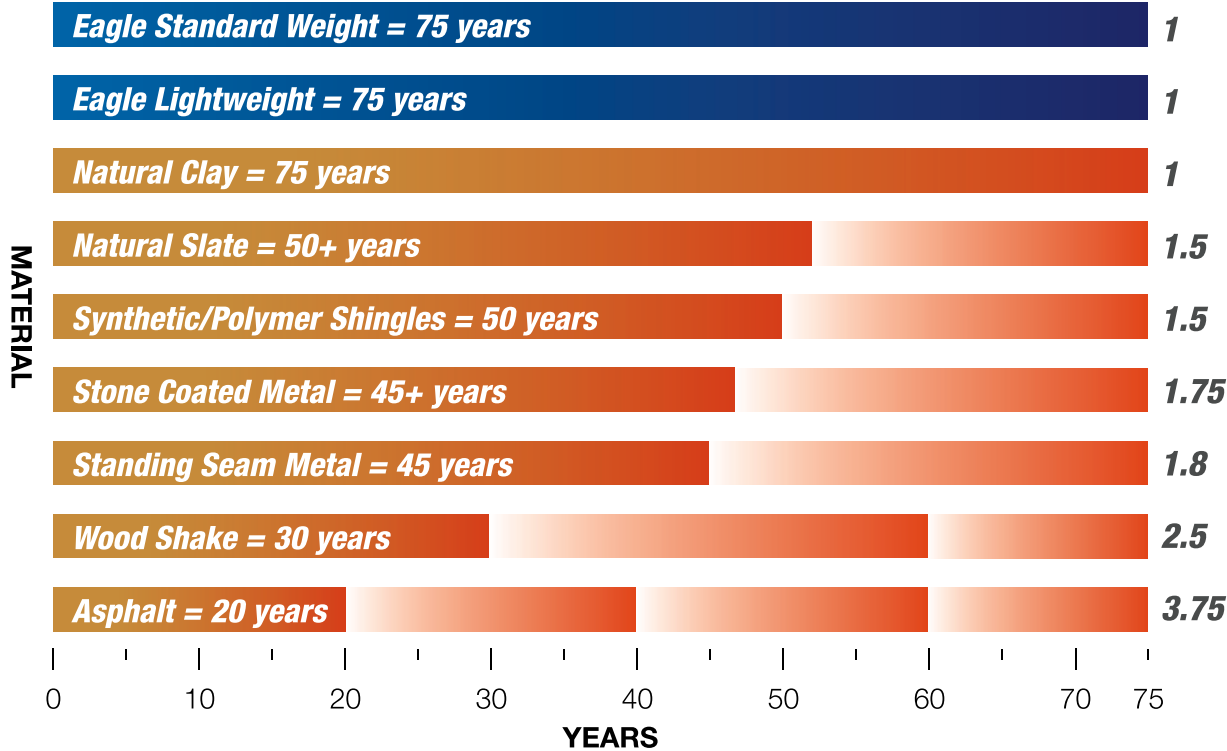

High Wind Tested
Installed correctly, Eagle Roof Tile can survive the strongest storms and harshest weather. Eagle tile is tested and approved for use in the Miami Dade high velocity hurricane zone, withstanding sustained winds of up to 180mph.

***Freeze Thaw Protection**
Eagle Roof Tile passes Freeze-Thaw requirements. **Excludes color bonded/slurry tiles.*

*Roofing material lifespan over 75 years.**

Number of times a reroof is required within 75 years*.

*From the NAHB Study of Roofing Materials Life Expectancy.

Tile Roofing Is Simply The Superior Choice

NEW CONSTRUCTION · REROOF · RESIDENTIAL · COMMERCIAL

HOW DO REAL TILE ROOFS COMPARE TO ASPHALT SHINGLES?

Tile. Sustainable, superior protection.

- Real tile roofs are no longer only “round and red”. Tile roofs are available in a variety of profiles and colors.
- Concrete tile roofs are produced from ALL natural products sand, cement, water and oxide.
 - Tile roofs are recyclable and biodegradable at the end of their lifespan.
 - Tile roofs are not plastic, resin, rubber or metal.
 - Tile roofs do not warp, rust or bend.
- Tile roofs are heavier than asphalt shingles. Weight equates to longevity, thermal superiority, weather, impact resistance and much more.
- Tile roofs invite extreme weather conditions, while asphalt shingle manufacturers base their sales projections on how many of their roofs will need replacing every year.
 - Tile can withstand sustained winds of up to 180mph*
 - Class A Roof Assembly
 - Hail/Impact Tested (in certain regions)
 - Freeze-Thaw (Excludes color bonded/slurry tiles)

Asphalt Shingle. Temporary, basic roof covering.

- Asphalt shingles are not distinctive.
- Asphalt shingles are not environmentally friendly, as they are a petroleum based product and fill landfills.
- Asphalt shingles do not perform well in hail storms. Roofers swarm neighborhoods subjected to the slightest hail storm.
- Synthetics and plastic products lack a proven track record as a long-lasting and durable roofing product.
- Asphalt shingles are easily damaged by high winds, especially after they age, dry out, lose granules and crack.
- Shingles are not resistant to extreme temperature variations, lending to cracking and loss of color, as they are dependent on granules that are temporarily adhered to the shingle.

High Wind Installation Methods that have been tested to withstand wind speeds of up to 180mph are available. For more information on the durability and longevity of tile roofs, contact your local Eagle Account Representative or visit the Tile Roofing Industry Alliance website (www.tilerroofing.org)

Committed to your Trust and Satisfaction

Specifying Eagle

Every effort has been made to provide you with the tools you need to specify Eagle on your next residential or commercial project. You can find these tools on our website at eagleroofing.com under the main tab **Specifiers**, as well as under **Technical**.

Installation

Eagle recommends that you find a licensed and insured Roofer for all of your roofing needs. Detailed installation recommendations can be found in the latest *Florida High Wind Concrete and Clay Tile Installation Manual*, published by the Florida Roofing and Sheet Metal Contractors Association. For further information, visit: tileroofing.org

Blended Tile

Blended tile provides added value and beauty to any architectural structure. However, it requires careful placement by your Roofing Contractor, who is responsible for ensuring that the placement of the tile is completed in an aesthetically pleasing manner. Eagle Roofing Products recommends that you discuss this design effect with your Roofer, prior to installation, to ensure that no hot spots (patches of color that undo the blended effect) are created.

Approvals

IAPMO ER #1900

Warranty

As the largest USA Owned, USA Made concrete roof tile manufacturer, Eagle Roofing Products proudly stands behind its products with a Transferable Limited Lifetime Product and Limited 10 Year Replacement Cost Warranty. We recommend that all customers read our warranty for details and conditions, which can be found at eagleroofing.com. To register your Eagle warranty, visit erwarranty.com.

Disclaimer

Eagle Roofing Products concrete roof tile is made from natural materials and color variations are to be expected. Every effort has been made to ensure the colors in this brochure are as close to the actual roof tile; however, photographic and printing techniques can alter the printed colors shown, varying it from actual tile colors. In addition,

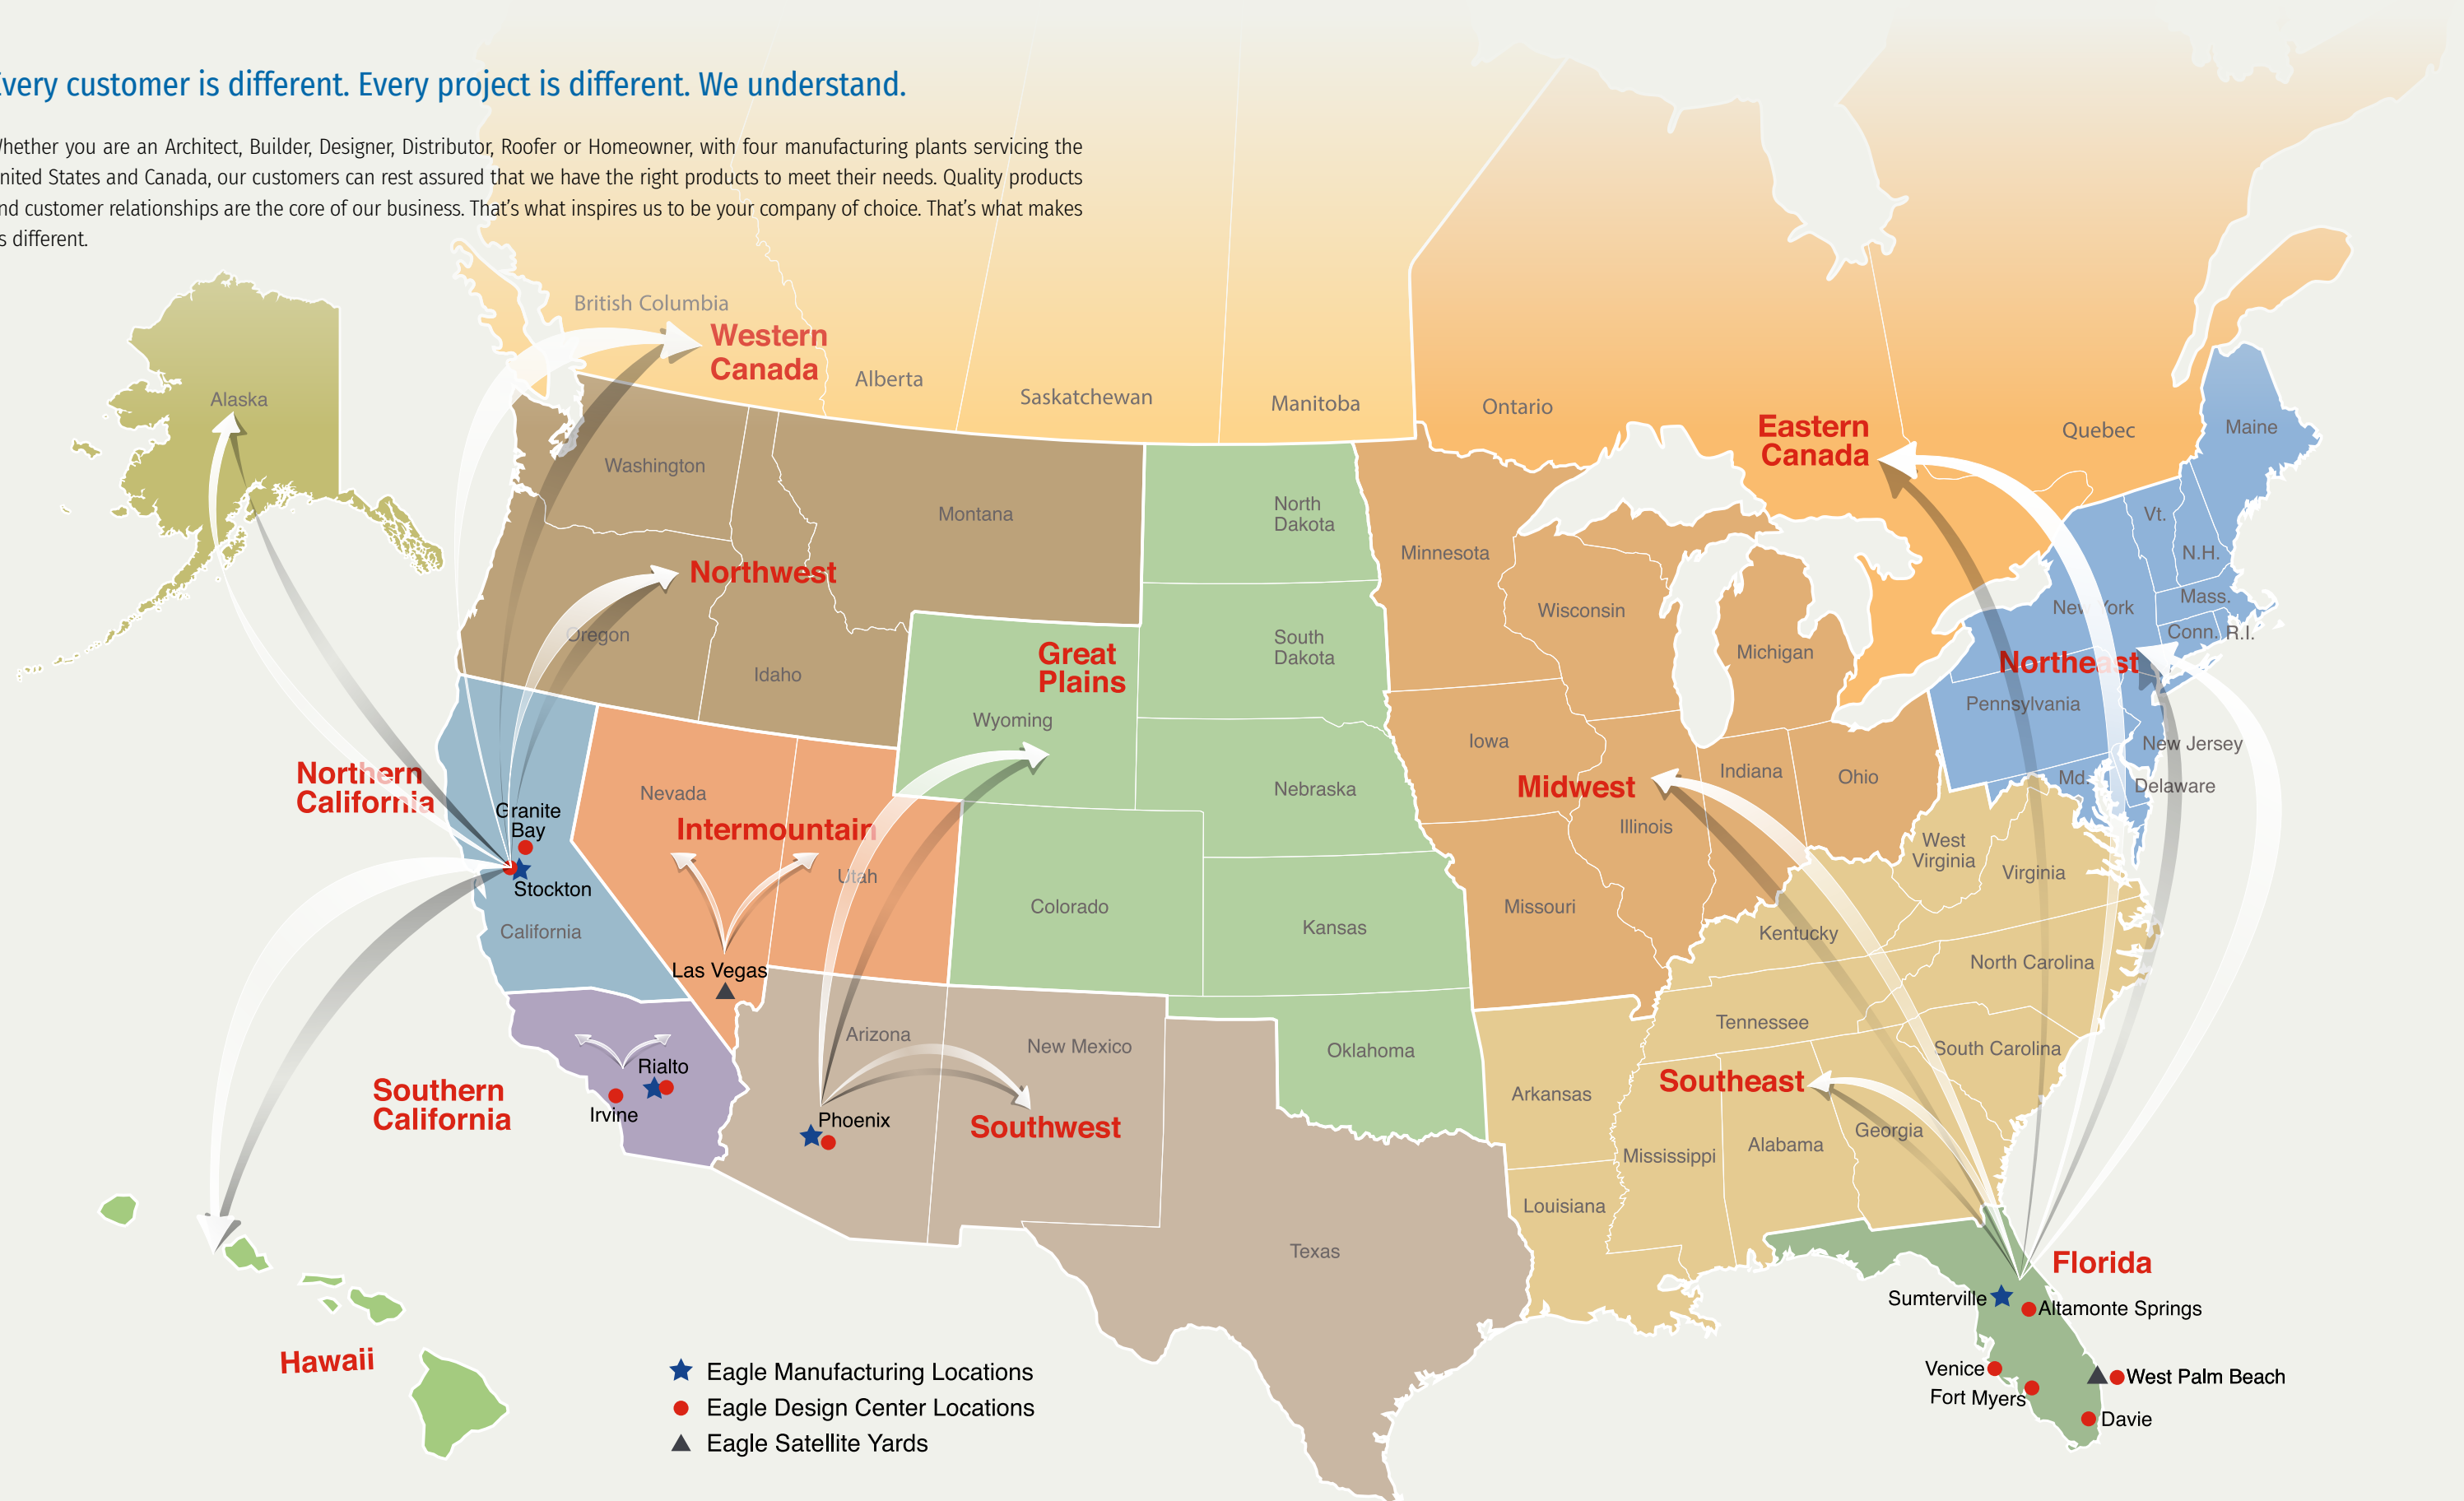

colors are subject to change, as slight variations in color or flashing may occur during manufacturing. **To ensure your satisfaction with the tile you chose from this brochure, we strongly recommend that you obtain a free tile sample** from your Roofing Contractor, an Eagle Design Center or an Eagle Account Representative before placing your order.
